

Parent School Network

Parent School Network (PSN) is a new organization at Plattsmouth High School. We invite all parents to become involved through PSN with their student's high school experience.

We know you all are busy. And you may think your kids don't want you involved. But the benefits of parental involvement do continue throughout the high school years! Involvement in PSN means that you can keep up-to-date with what's going on at school. Parents can also get acquainted with other students and teachers who have a daily influence on their children. Bonds of friendship strengthen over the four years of high school, and shared experiences create lifetime memories.

Volunteer assistance is welcome, needed and most appreciated! Whether you decide to take a major or minor role with the organization is up to you. Perhaps you just want to come to the monthly PSN meetings to become informed, meet other parents, or talk to administrators. That's great! Or, if you would like to take a more active role and volunteer to assist with the many activities for which PSN is responsible, that would be great, too. What will PSN do?

1. PSN will help support the students and teachers at Plattsmouth High School through a variety of activities. This should help create and maintain excellence in Plattsmouth High School's activities and programs. Possible activities could include:
 - a. Help plan and organize open house for parents.
 - b. Facilitate activities for students and staff.
 - c. Volunteering for a variety of activities.
 - d. Create a scholarship and grant program.
 - e. Monthly meetings with speakers and administrators.
 - f. Play an advisory role with PHS administration.
